### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: in claim 10, line 2, "the tether" has been changed to —a tether— to provide proper antecedent basis to the claimed element.

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the claims in this application have been allowed because the prior art, alone or in combination, does not disclose a motor assisted swivel comprising: a swivel attached to a tether, the swivel having parts rotatable relative to each other; at least one conduit within the swivel; and a motor connected to the swivel for rotating at least one part of the swivel relative to another part. Nor is it disclosed a method for rotating a swivel in a tether system for animal testing, the swivel having parts rotatable relative to each other, the method comprising the steps of: detecting a direction of rotation of a tether in the tether system, and activating a motor connected to at least one part of the swivel to rotate the at least one part of the swivel relative to another part of the swivel in the detected direction of rotation of the tether.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
